### EXAMINER'S AMENDMENT

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this Examiner's Amendment was given in a telephone interview with Brian C. Rupp on December 21, 2007.
3. The application has been amended as follows:

### CLAIMS

- **Claim 1 (line 9)** – please delete “means” and replace with “means for saving”.
- **Claim 1 (line 10)** – please delete “image” and replace with “image file”.
- **Claim 1 (line 11)** – please delete “image” and replace with “image file”.
- **Claim 1 (line 12)** – please delete “image” and replace with “image file”.
- **Claim 6 (line 2)** – please delete “means” and replace with “means for saving”.
- **Claim 6 (line 4)** – please delete “image” and replace with “image file”.

### *Allowable Subject Matter*

4. **Claims 1, 6, 8, 11, 14, and 19 – 21** (now respectively renumbered 1 – 8) are allowed.
5. The following is an Examiner's statement of reasons for allowance:

The closest prior art, in particular, discloses a digital camera frees up memory space to capture additional images such that each time a new picture is taken, the quality of some of the previously captured images is reduced, while their resolution is maintained. Essentially, the

camera frees-up memory space for additional images by varying the resolution and/or compression ratio of already-stored images.

However, the closest prior art does not teach or fairly suggest wherein the digital camera instead maintains the already-stored images in their respective resolutions and compression ratios while only changing one or both of a resolution and compression ratio of a newly-captured or additional image.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Cited Prior Art***

7. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure for the following reasons:

- **US 7,123,295 B2 (Baron et al.)** discloses a digital camera having a processor that determines whether any of the images in the memory have been archived and replaces one or more archived images with newly captured images as the device is used.
- **US 6,999,626 B2 (Andrew) & US 6,813,312 B2 (Tullberg et al.)** discloses a digital camera that recovers image memory capacity by modifying previously stored image data.

***Conclusion***
